

Home Sweet Home

With WatterSaver you won't overpay for your hot water.

WatterSaver is a program for Pacific Gas and Electric Company (PG&E) customers that rewards you for heating your water when electricity prices are lower. When you connect your smart water heater to WatterSaver, it will automatically take advantage of lower electricity rates, so water is heated at the least expensive times of day. Hot water is ready whenever you need it, without having to pay the highest electricity prices.

Am I eligible?

PG&E customers with a smart water heater are eligible to join WatterSaver.

But don't worry if you don't have a smart water heater, many standard electric water heaters can be retrofitted to be eligible for the program. Reach out to WatterSaver for more information and technical support.

If you aren't currently on a Time-of-Use (TOU) rate plan you may be required to switch to take advantage of WatterSaver savings. To see if your current rate plan qualifies visit: www.watter-saver.com/eligibility/

Plus, when you sign up for WatterSaver you'll receive a \$50 gift card enrollment bonus, and an additional \$5 gift card credit for every month you're enrolled.

How do I sign up?

- Go to www.Watter-Saver.com
- Click "Sign Me Up"
